

## **B2C COMMUNITY IT RECYCLERS**

We are proud to announce that B2C Community IT Recyclers (B2C) has agreed to show its support for The Queen's Fund by offering a 15% discount on refurbished desktop computers or laptops to applicants who receive funding from The Queen's Fund.

Not only are computers from B2C more affordable but as a Microsoft Registered Refurbisher, B2C will put Microsoft Windows 10 operating systems and Office 2010 on all computers purchased and provide a 3 month warranty.

B2C Community IT Recyclers is a social enterprise of The WERX Foundation Inc, a not-for-profit organisation, and is committed to:

1. assisting local and overseas communities in need by providing low cost refurbished IT equipment;
2. providing re-training in a live work environment to those disadvantaged in the labour market; and
3. reducing the amount of IT waste entering landfill through environmentally responsible recycling procedures.

For more information about B2C Community IT Recyclers see **[www.b2crecyclers.com.au](http://www.b2crecyclers.com.au)**.

To ensure any single, female client of yours who is in distress, crisis or an emergency situation and in need of a computer receives the benefit of this incredibly generous arrangement, please email **[info@b2crecyclers.com.au](mailto:info@b2crecyclers.com.au)** with your client's computer requirements. You will need to mention to B2C in your email that you intend to apply on behalf of your client to The Queen's Fund for funding for the computer.

When you submit your application to The Queen's Fund, **please include the invoice you receive from B2C for the computer**. The invoice will state the price of the computer both before and after the 15% discount is applied.

If your client's application is approved by The Queen's Fund, the amount stated in the invoice from B2C will be paid by The Queen's Fund by EFT direct to B2C and a letter confirming the amount granted will be sent to the Referring Agency by email. Upon receipt of payment, the computer will be delivered free of charge to the Referring Agency by B2C.

The Committee of Management for The Queen's Fund would like to thank B2C for their generous support. Both organisations look forward to seeing improved financial circumstances and emotional well being for Victorian single women in need through increased access to affordable computers.
